	DOCUMENT #: FM2-QM.SLQ050	Effective Date: 30Jul2022

Equipment Requirements

Equipment ID #:	ST-003	Equipment Description:	Waste Tank Assembly, 500 gallon
Model #:	CB-500-W/STD-NH	S/N:	N/A
Manufacturer:	Norwesco	Operating Range:	500 gallon capacity
Type (check one):	☒ Production / ☐ Engineering / ☐ Quality / ☐ Other _____		

Calibration Requirements (check type of calibration):		
☐ Calibration Required Internal / External (circle one) Interval: _____ Internal calibration procedure #: _____	☐ Limited Calibration For limited calibration, document nature of limited calibration (how it can / cannot be used)	☒ No Calibration For no calibration required, document rationale for reason(s) equipment does not require calibration
Requirements or Rationale for No Calibration: The Waste Tank Assembly houses waste fluid from the purification process and does not contain any electromechanical components or assemblies.		
Preventive Maintenance Requirements (check type of calibration):		
☐ Preventive Maintenance Required Interval: _____ Internal PM procedure #: _____	☒ No Preventive Maintenance For no preventive maintenance required, document rationale for reason(s) equipment does not require preventive maintenance	
Requirements or Rationale for No PM: The Waste Tank Assembly is composed of a 500 gallon tank and fittings. There are no components that require preventive maintenance. Potential failures in the water tank may include leaks from connections which can be addressed by the manufacturing personnel if they occur.
