

	DOCUMENT TITLE: Equipment Requirements Form	Revision: A
	DOCUMENT #: FM2-QM.SLQ050	Effective Date: 30Jul2022

Equipment Requirements

Equipment ID #:	ST-004	Equipment Description:	Waste Diaphragm Pump
Model #:	6661AJ-344-C	S/N:	N/A ^{30 Dec 2022} SPL2281133
Manufacturer:	ARO Pumps	Operating Range:	47 gallons per minute (max)
Type (check one):	☒ Production / ☐ Engineering / ☐ Quality / ☐ Other _____		

Calibration Requirements (check type of calibration):		
☐ Calibration Required	☐ Limited Calibration	☒ No Calibration
Internal / External (circle one) Interval: _____ Internal calibration procedure #: _____	For limited calibration, document nature of limited calibration (how it can / cannot be used)	For no calibration required, document rationale for reason(s) equipment does not require calibration
Requirements or Rationale for No Calibration: The flow rate of the waste diaphragm pump does not need to be precise for its function in the manufacturing process. The pump is used to pump waste fluids to a waste tank.		
Preventive Maintenance Requirements (check type of calibration):		
☒ Preventive Maintenance Required	☐ No Preventive Maintenance	
Interval: <u>Annual</u> Internal PM procedure #: <u>N/A</u>	For no preventive maintenance required, document rationale for reason(s) equipment does not require preventive maintenance	
Requirements or Rationale for No PM: PM checklist: 1) Examine diaphragm for wear and change, if necessary. 2) Check the tightness of pump hardware. Inspect connections of the pump for any oil leaks. Tighten connections/hardware, as necessary.
