PHASE 0 - CAPA INITIATION

Initiated By:	Larry Dacoron	Date Initiated:	06-Jun-2023
CAPA Description:	The training process for establishing competence based on education, skills, training, and experience is out of compliance with internal training SOP and Section 8.3.4 of Training procedure (QP-017 Rev E), "Retraining shall take place yearly based on previous training date per procedure." Based on review of employee training records, this requirement has not been fulfilled. Audit AUD-22-003, CAPA-22-0007, AUD-23-007, CAPA-23-0012(a), and CAPA-23-0018 were consolidated into CAPA-24-001. In addition to Finding #1 from SILQ AUD-23-012 (CAPA-24-001), CAPA-24-001 was initiated in response to the following evidence: Findings from SILQ AUD-22-003 (CAPA-22-0007): Personnel performing work on product Lot #'s SLQ1610-012022 and SLQ1610-012122 per applicable procedures MP-SLQ-0001 Rev A and MP-SLQ-0002 Rev A were trained after the dates the work was performed. See MP-SLQ-0001 Rev A training records for Sean Tamayo, Amalia Fuller, and Eva Tamayo. See MP-SLQ-0002 Rev A training record for Will Hail. During review of DHR for Lot #'s SLQ1610-012022 and SLQ1610-012122, it was noted the personnel who performed work on the batches which included Sean Tamayo, Amalia Fuller, Eva Tamayo, and Will Hail. In subsequent review of personnel training records, it was found that the training records for manufacturing procedures MP-SLQ-0001 Rev A and MP-SLQ-0002 Rev A were dated after the work performed on Lot #'s SLQ1610-012022 and SLQ1610-012122. Findings from Lineage AUD-23-007 (Minor #2) (CAPA-23-0012(a)): Inadequate systems for monitoring of Quality systems. a. There is no system in place to monitor that training is completed on time. CAPA-23-0018 (previously CAPA-22-0007): Employees should complete training before starting manufacturing. However, evidence shows training occurred after the manufacturing start date in a DHR.
