SUMMARY OF QUALIFICATIONS

- ❖ Twenty-three (23) years of experience and progressive growth within the medical device industry (39-years of experience – overall in quality, regulatory, quality engineering, program management, and operations management).
- ❖ In-depth knowledge of 21 CFR, Parts 4, 801, 803, 806, 807, 812, 820, 830, 888, & 1271; ISO 11607-1 & 2; ISO 13485; ISO 14971; ISO 9001; ISO 17100; CMDR - SOR/98-282; the Medical Device Directive (Council Directive - 93/42/EEC); the In-Vitro Diagnostic Device Directive (Council Directive 98/79/EC); Medical Device Single Audit Program (MDSAP); EU Medical Device Regulation - (EU) 2017/745; RDC16/2013; TGA Reg 2002-Section 3; and Ministerial Ordinance 169 (Japan – MHLW Standard for Manufacturing and Quality Control of Medical Devices).
- ❖ In-depth knowledge of MEDDEV 2.12-1; MEDDEV 2.12/2; MEDDEV 2.7.1; and MEDDEV 2.4/1.
- ❖ Demonstrated ability to direct and manage day-to-day activities for diverse functional groups and work teams in support of driving manufacturing, quality, supply chain, supplier, and overall organizational improvements.
- ❖ Demonstrated success managing multi-million dollar projects to plan.
- ❖ Demonstrated success in reducing inspection times by improving supplier performance through the employment of statistical inspection tools and enhanced supplier partnerships.
- ❖ Demonstrated success in improving manufacturing yields and throughput at multiple manufacturing plants.
- ❖ Demonstrated expertise in the recertification of medical devices distributed within the European Union employing harmonized and industry recognized standards.
- ❖ In-depth knowledge of technical file and design dossier construction and paths for product conformity within the European Economic Community (EEC).
- ❖ Extensive Experience in writing 510(k)'s for Class II Devices in the United States.
- ❖ Extensive Experience in writing licensing submissions for Health Canada.
- ❖ Extensive Experience in writing technical files for Class IIa and IIb devices in Europe.
- ❖ Extensive Experience in managing FDA inspections, notified body audits, and similar assessments by other regulatory bodies, e.g. California Food & Drug Branch.
- ❖ Extensive experience in performing validation reviews and assessments (IQ, OQ, PQ, and PPQ).
- ❖ Extensive experience in design controls in accordance with §820.30 and clause 7.3 of ISO 13485.
- ❖ Extensive experience in all aspects of supplier management.
- ❖ Extensive experience in performing internal audits.
- ❖ Extensive experience in performing supplier assessments for multiple commodities and services.

EXPERIENCE

Devine Guidance International – Las Vegas, NV
President

March 2011 to Present

- Devine Guidance International, Inc. (DGII) is a consulting firm specializing in providing solutions and support for Quality Management System (QMS) installation, quality compliance (internal audits), regulatory affairs, supplier management (supplier audits), validation reviews, 510(k) generation, technical file generation, PMCFs, Clinical Evaluation Reports, FDA Form 483 observation(s) mitigation, warning letter mitigation, and other QA/RA support required by the medical device industry.

Boston Scientific – Natick, MA & San Jose, CA
Program Director - Corporate Quality Assurance

January 2005 to March 2011

- Promoted into a corporate role in January of 2005 and tasked with managing a \$100M project involving twelve manufacturing facilities. As part of this project, technical files and design dossiers

Christopher Joseph Devine, Ph.D.

5869 Southwind Drive • San Jose, CA 95138

(408) 687-6742 • DrCJDevine@aol.com

were aligned with MDD requirements and Harmonized Standards to ensure ongoing compliance was sustained. Over 265 Technical File and Design Dossiers were remediated as part of this program. Over 300 510(k)'s were reviewed and remediated as part of this program. Managed all validation activities in support of FDA Warning Letter Mitigation activities.

- In 2006, recertification of Japanese products (Shonin – Japanese Technical Dossiers) was added to my expanding role to ensure overall product recertification and recertification targets were achieved prior to product license expiration in Japan.
- In April of 2010, my role was expanded to include corporate quality support for production line transfers from US-based plants to Costa Rica.
- Instrumental in the rescript of the BSC supplier quality program.
- Member of BSC training team for training all BSC facilities on how to create and execute supplier audits.
- Instrumental in the audit and preparation of multiple BSC sites in support of FDA Warning Letter mitigation.
- Supporting acquisition and integration activities for the Endoscopy Division added to my responsibilities in September of 2010.
- Corporate Subject Matter Expert (SME) for packaging and labeling activities.

Boston Scientific (Electrophysiology) – San Jose, CA

Division - Quality Control Manager

December 1997 to January 2005

- Electrophysiology (EP) Division - Quality Manager tasked with managing Supplier Quality, Incoming Quality, Quality Control, Device History Record (DHR) Control, Material Review Board (MRB), Metrology, Internal Audits, and Product Sterilization for the BSC-Electrophysiology Division.
- Managed a staff of 28 employees.
- Departmental budget was managed to fiscal plan for seven-consecutive years.
- Improved yields at incoming inspection from 82% to 99%.
- Improved manufacturing yields from 87% to 98%.
- Reduced the total material receipt and inspection time from 41-days down to a single day.
- Automated the Internal Audit System and managed the execution of 41-Internal Audits each year.
- Senior Corporate Supplier Quality Core-Team Member that developed and implemented an integrated solution for supplier quality activities for all of BSC.
- As a member of the BSC Packaging Council, worked with the core team responsible for the development and implementation of an integrated approach for medical-device packaging and testing solution for the entire corporation.
- Working with core-team members developed, two-training programs that were deployed to support vendor management and packaging engineering.
- Member of BSC-Corporate Supplier Quality, Packaging, Metals, Master Branding, and Plastics Councils.
