	DOCUMENT #: FM1-QM.SLQ015	Effective Date: 25Sep2020

Supplier Quality Self-Assessment Survey Form

General Instructions:

1. Complete all sections of the self-assessment survey form, except for sections designated to be completed by SILQ only.
2. Attach copies of any necessary certificates or documentation in support of answers.
3. Please use the 'Comments' section at the end of the questionnaire to provide additional explanations / rationale.
4. 'N/A' identifies a survey item as one that is not pertinent or necessary to the product or service provided. Items so identified are to be discounted and essentially eliminated from the evaluation. They require no corrective action or follow up. Any survey item so identified is to be explained in the comment section.
5. Please return form to SILQ within 15 days.
6. This self-assessment will be reviewed upon receipt by SILQ to determine the status of supplier.

SUPPLIER INFORMATION			
Supplier Name: Richman Chemical Inc.			
Street: 768 N Bethlehem Pike			
City: Lower Gwynedd	State: PA	Zip Code: 19002	
Telephone: 215-628-2946		Fax: 215-628-4262	
E-mail address: rj@richmanchemical.com			
Total years in business: 34	Years at present facility: 25+	Total number of employees: 15	
Approx. square footage of facility, including warehouse:	Number of work days / week: 5	Number of shifts: one (1)	
What Product / Service do you provide to SILQ?: Richman Chemical offers services relating to all areas of chemical production, from small-molecule custom synthesis to large scale toll manufacturing. RCI possesses a unique network of partners that specialize in all areas of chemistry and toll processing which enables RCI to provide solutions specifically tailored to client needs.			
Is this company a subsidiary of another corporation?: ☐ Yes ☒ No			
If yes, name:			
List location of any 'satellite' facilities:			
Are subcontractors involved in the manufacture of items we will purchase?: ☒ Yes ☐ No			
If yes, please describe: Adesis Inc.			

MANUFACTURING SITE INFORMATION
Supplier Name: Adesis Inc.
Street: 27 McCullough Drive

	DOCUMENT TITLE: Supplier Quality Self-Assessment Survey Form -- Manufacturer	Revision: A
	DOCUMENT #: FM1-QM.SLQ015	Effective Date: 25Sep2020

City: New Castle	State: DE	Zip Code: 19720
Telephone: 302.317.0148		Fax: 302.317.0148
E-mail address: bedwards@adesisinc.com		
Total years in business: 20+	Years at present facility: 20+	Total number of employees: ~179
Approx. square footage of facility, including warehouse: ~40,000	Number of work days / week: 7	Number of shifts: one (1)
What Product / Service do you provide to SILQ?: As a contract research organization, the Adesis' mission is solving our clients' complex chemistry problems and accelerating their research and manufacturing goals.		
Is this company a subsidiary of another corporation?: ☒ Yes ☐ No If yes, name: Adesis is owned by Universal Display Corporation. Universal Display Corporation (Nasdaq: OLED) started as a client, then acquired Adesis in 2016 to bring our highly specialized chemists in-house.		
List location of any 'satellite' facilities: Wilmington DE Location		
Are subcontractors involved in the manufacture of items we will purchase?: ☐ Yes ☒ No If yes, please describe:		

Self-Assessment Completed By:			
Printed Name	Signature	Title	Date
Richard Jasinski	<i>Richard Jasinski</i>	Sr. Manager, Custom Manuf.	July 15, 2022
M. Blake Edwards	<i>M. Blake Edwards</i>	Head Quality	July 25, 2022

FOR SILQ USE ONLY	
Survey Score: 95	Supplier Classification: ☒ I ☐ III ☐ IV
Supplier Status: ☒ Approved ☐ Conditional ☐ Reject / Disqualify	
Notes: ISO 9001 certificate of subcontractor where chemicals are manufactured (Adesis) as been provided.	
Manufacturing Approval and Date: Brian McVerry <i>Brian McVerry</i> 26 Jul 2022	
QA Approval and Date: Bryan Wong <i>Bryan Wong</i> 26 Jul 2022

QUESTIONNAIRE: Supplier Name: Richman Chemical, Inc.

Please place an 'X' in the appropriate column

		Yes	No	N/A	For SILQ Use Only
General Quality System and Regulatory					
1.	Is your facility/company registered with the United States Food and Drug Administration (FDA) per 21 CFR 807?		No		2
1a.	If Yes , please provide registration number:				
2.	Has your facility ever been inspected by a state, federal or foreign agency?		No		--
2a.	If Yes , what was date of last inspection:				
3.	Have you been free of any product recalls in the past 5 years?	Yes			2
3a.	If No , please list (use comments section below as needed):				
4.	Do you have a Quality Assurance / Control department?	Yes			2
4a.	If No , please explain (use comments section below as needed):				
5.	Do you have a Quality Manual (QM)?	Yes			2
5a.	If Yes , please provide a copy of the QM or Table of Contents with this Questionnaire.				1
6.	Do you have an organizational chart?	Yes			1
6a.	If Yes , please provide a copy.				1
7.	Is your company certified to a formal Quality System?	Yes			2
7a.	If Yes , please list (e.g., ISO 13485, ISO 9001): ISO 9001				
7b.	If Yes , please provide a copy of your last certification / recertification and Go to question #64.	Yes			--
7c.	If No , are you seeking registration?			N/A	--
7d.	If No , please explain (use comments section below as needed): N/A				
Quality Organization					
8.	Does Quality Assurance have the authority to approve/reject facility, equipment, process and procedural changes?	Yes			2
9.	Does Quality Assurance have the authority to stop production or withhold shipments?	Yes			2
10.	Does Quality Assurance approve/reject finished good component manufactured, processed, packaged or held by outside suppliers?	Yes			2
11.	Is the person responsible for the quality assurance program directly responsible for the performance of a manufacturing operation?	Yes			1
12.	Is there a formal procedure for performing internal audits?	Yes			2
13.	Are internal audits documented?	Yes			2
14.	Are documented follow-up corrective actions taken on noted audit deficiencies?	Yes			1
15.	Is there a formal procedure for handling complaint and/or problem reporting?	Yes			1

Please place an 'X' in the appropriate column

		Yes	No	N/A	For SILQ Use Only
16.	Is a complete record maintained for each complaint and/or problem reported?	Yes			1
Document Control					
17.	Do written procedures exist governing a document control and change control system?	Yes			2
18.	Are systems in place to ensure that obsolete documents are removed from all points of use?	Yes			2
19.	Are procedures available in an acceptable format for review by auditors?	Yes			1
20.	Are specifications and/or drawings and purchase order contracts reviewed for any special requirements?	Yes			1
21.	Are production records retained at least two years beyond the date of release?	Yes			1
22.	Is there a fire control system in place to protect all documents, artwork and quality records?	Yes			1
Training					
23.	Is there a formal employee training program?	Yes			2
24.	Are records maintained to show which employees have completed what training?	Yes			1
Calibration and Preventative Maintenance					
25.	Is there a formal calibration program for inspection, measuring and test equipment?	Yes			3
25a.	If Yes , is the calibration program documented?	Yes			2
25b.	If Yes , is calibration system traceable to National Institute of Standards and Technology (NIST)?	Yes			2
26.	Are tools and equipment properly identified with calibration status?	Yes			2
27.	Is there a formal preventative maintenance program?	Yes			2
28.	Are documented preventative maintenance schedules used on both the equipment and facility?	Yes			2
Purchasing and Receiving					
29.	Are there established quality requirements for your suppliers?	No			2
30.	Is the supplier assessment / qualification of each supplier documented?	Yes			2
31.	Do written procedures exist for receiving and receiving inspection?	Yes			3
32.	Are materials segregated prohibiting their removal prior to incoming inspection?	Yes			2
33.	Do receiving / inspection controls on incoming shipments require verification to requirements of the purchase order, specification and applicable drawing?	Yes			2

		Yes	No	N/A	For SILQ Use Only
34.	Is a formally recognized sampling plan used for receiving inspection?	No			1
34a.	If Yes , list the sample plan, level and AQL that is used:				
35.	Is there a system in place that will allow complete material traceability?	Yes			2
36.	Do receiving inspection records indicate acceptance or rejection of incoming material?	Yes			2
37.	Are accepted / rejected materials clearly identified and controlled?	Yes			2
38.	Is there a system to review and disposition rejected materials?	Yes			1
39.	Is the cause for rejection documented?	Yes			1
Materials, Storage and Handling					
40.	Do written procedures exist for material storage and handling?	Yes			3
41.	Is access to stockrooms and material storage areas restricted to authorized personnel?	Yes			2
42.	Are materials handled, identified and stored in a manner that will prevent damage, contamination, mix-up or loss?	Yes			2
43.	Is material inventory / removal documented?	Yes			1
44.	Are there specific controls in place for access to labels and other labeling?	Yes			1
Production and In-process Controls					
45.	Do written procedures exist for production control?	Yes			3
46.	Is production equipment appropriately designed, constructed and maintained?	Yes			2
47.	Are equipment cleaning logs maintained?	Yes			1
48.	Is a formally recognized sampling plan used for in-process and final inspection?	Yes			2
48a.	If Yes , list the sample plan, level and AQL that is used:				
49.	Are SPC techniques utilized in your manufacturing or production process?		No		1
50.	If controlled environments (e.g., clean rooms) are necessary, are they adequately maintained?	Yes			2
51.	If applicable, are pyrogen controls in place?		No		
52.	Do written procedures exist for all manufacturing and inspection / testing processes?	Yes			3
53.	Are batch history / device history records assembled and sufficient in the following content:				
53a.	List of components / materials used:		No		2
53b.	Documentation that each significant step in the manufacture, packaging, or holding was accomplished including: - Dates - Identification of person responsible for completing the step - Identity of major equipment and/or production line used	Yes			2

	- Identification of each batch of parts / materials used - In-process test / inspection results				
54.	Do written procedures exist for review and release of batch history / device records?	Yes			2
55.	Are line-clearance procedures employed to prevent mix-ups?	Yes			2
56.	Is there a formal system in place for segregation, review and disposition of non-conforming product?	Yes			2
57.	Do written procedures exist for handling of re-processing lots / batches?	Yes			2
58.	Are changes to specifications formally approved with design criteria consideration prior to implementation?	Yes			2
59.	Is there a final inspection performed by quality control on a batch by batch basis?	Yes			1
60.	Are the finished goods and components checked for correct expiration date?	Yes			2
Packaging and Shipping					
61.	Is there a system in place to assure that only finished goods approved for release are distributed?	Yes			2
62.	Are packaging and shipping containers proven to protect the finished goods during distribution?	Yes			2
63.	Are records available to recall all finished goods if required?	Yes			2
General Follow-up					
64.	Would you object to SILQ conducting an on-site supplier audit?		No		
65.	What type of technical services and assistance can you provide to your customers?				
66.	Please list any major improvements or additional process capabilities that you have implemented into your manufacturing process or quality systems within the last year or since the last SILQ self-assessment questionnaire.
